PROFESSIONAL HIGHLIGHTS

A highly motivated and adaptable software engineering professional with a positive attitude and a strong commitment to delivering high-quality service. Skilled in cybersecurity, software development, and effective communication, with a proven ability to thrive in high-pressure environments and manage multiple tasks efficiently.

EDUCATION and CERTIFICATION

Software Engineering Technology (Fast-Track)   September 5, 2023 – Present
Centennial College   Ontario, Canada

Bachelor of Science in Information Technology   August 2018 – June 2022
Saint Louis University   Baguio City, Philippines

WORK EXPERIENCE

Security Associate   May 2023 – August 2023
Inchcape Digital Delivery Centre   Pasig City, Philippines
- Assisted in the documentation of the department's procedures, policies, and standards
- Coordinated, maintained and implemented cyber and security information policies
- Worked with leads to ensure that policies are implemented, and all corrective actions are performed and verify if the correction actions have eliminated the cause of nonconformities or risk issues
- Identified gaps in compliance, ensure that a plan is in place to achieve compliance
- Coordinated security incident management, received information about incidents, coordinated response to incidents, prepared evidence, and analyzed incidents to prevent from recurrence
- Produced regular reports on the performance of users and ensure that all users complete the training program provided by the company

Cybersecurity Threat Engineer   September 2022 – February 2023
Trend Micro   Pasig City, Philippines
- Attended an intensive training on Malware Analysis applied toward Campaign Investigation to enhance cybersecurity forensic skills
- Performed day-to-day threats analysis affecting customers and delivers quality and timely solutions to customers' threat-related issues and inquiries
- Provided layered solutions for prevention, detection, and sensors for high impact threats and campaigns
- Proactively hunted for threats and create solutions on them even before threats reach customer environment

Research and Development Intern   January 2022 – May 2022
Advanced World Solutions, Inc.   Makati City, Philippines
- Conducted research and documentation for development projects.
- Assisted in programming, coding, testing, and debugging.
- Prepared reports and complied with company regulations.

PROJECTS

Dental Clinic Appointment and Booking System
Main Developer
https://github.com/mtoleran/COMP229SEC004W24_GRP10

- Developed a comprehensive dental clinic appointment booking system.
- Integrated features for user registration, appointment scheduling, and user management.
- Utilized React and Material-UI for the front-end, and Node.js, Express.js, and MongoDB for the back end.
- Implemented secure authentication and authorization mechanisms.
- Ensured responsiveness and a user-friendly interface across devices.

SKILLS

- **Technical Skills:**
  - **Programming Language:** Java, Kotlin, Python, C++, C#, WPF, JavaFX
  - **Web Development:** HTML, CSS, JavaScript, Node.js, Express.js, React, Angular, Spring, REST API, Postman, GitHub, Git
  - **IDEs:** IntelliJ, Visual Studio Code, Visual Studio, Android Studio, Jupyter Notebook, PyCharm
  - **DBMS Tools:** MySQL, MongoDB, PL/SQL
  - **Software System Designs:** SDLC, UI/UX Designs
  - **Graphic Design Tools:** Canva, Photoshop, Figma, Lucidchart, InVision
  - **Productivity Tools:** JIRA, Office365, Google Workspace
  - **Testing Tools:** JUnit, Mocha.js, Jest
  - **Data Structures:** Arrays, Linked Lists, Stacks, Queues, Trees, Hash Tables, etc.

- **Professional Skills:**
  - Effective communication and customer service
  - Adaptability to various working environments and high-pressure situations
  - Team collaboration and positive work environment contribution
